DETAILED ACTION

- This action is responsive to the following communication: Amendment After Final filed on 8/30/05.
- Claims 1, 4, 6-7, 10, and 12-22 have been canceled. Claims 2-3, 5, 8-9, and 11 are allowable over prior art of record, renumbered as claims 1-6.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The cited prior arts of record (US 5749024, US 6104498, US 5442732, and US 5282050) fail to teach and/or suggest a printing control method and/or apparatus of controlling, from a host computer, a printing device to output printing data onto a printing medium comprising:

- a saving state check step of checking whether the printing device is set to a saving state in which a page having no output data is not output; and
- a saving function invalidating step of invalidating setting of the saving state when setting of additionally outputting the predetermined medium is detected in the separation printing check and setting of the saving state is detected in the saving check step.

The examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of prior arts that teaches the above limitations *and in combinations of other features* cited in independent claims 2-3, 8-9, renumbered as claims 1-2, 4-5.
